

RAFAEL DE OLIVEIRA

Junior Software Engineer
(Back-end / Full-stack)

ABOUT ME

Hello! My name is Rafael De Oliveira. I am 18 years old, graduated as an IT Technician from UNASP, and currently pursuing a Bachelor's degree in Computer Science at the same institution. I enjoy building complete applications, from database development to user interfaces, and I have a growing interest in Cloud Computing as the next step in my professional journey.

PROJECTS

PORTFOLIO

Personal Project

- Personal portfolio developed to showcase my journey, skills, and projects as a developer.
- Designed in Figma and built with Next.js, focusing on performance, responsiveness, and modern design.
- Tech Stack: Next.js, TypeScript, Tailwind CSS.

- Next.js App Router and Testing (8 hours)
- Back-End Development with C# (10 hours)
- English Fundamentals: Successful Networking and Interviews (8 hours)
- English – Basic Level

VOLUNTEER EXPERIENCE

MEDIA TEAM

Belém Ministry – Assembleia de Deus Church

December 2023 – Present

I am responsible for operating the media system at my church, including image projection, worship lyrics, Bible verses, and additional content during services and events. I also operate the audio mixer, ensuring the audiovisual quality of presentations.

Additionally, I help manage the youth ministry's Instagram account by creating content, following trends, organizing posts, and developing engagement strategies. This experience has strengthened my creativity, technical skills, communication, and teamwork.
